

# Top Design Firms 04

By Scott Blair

<http://southwest.construction.com/features/archive/0410eature9asp>

**Welcome to *Southwest Contractor's* annual ranking of the top design firms. The information on the following pages was gathered through surveys that were sent to hundreds of architects and engineers in Arizona, New Mexico and Nevada. We thank all of the firms who provided us with their information, allowing us to produce the most detailed ranking of its kind in the Southwest.**

The Top 125 Design Firms are ranked by the combined total Arizona, Nevada and New Mexico revenue for 2003. There are also state-by-state rankings, as well as rankings in various specialties, such as environmental and transportation.

The 139 participating firms reported \$1.26 billion in design work for 2003, a significant 16 percent increase over the previous year. The strong surge in design work propelled big increases in each state, with a 17 percent jump in Arizona, 11 percent in Nevada, and an encouraging 21 percent rise in New Mexico over 2002 numbers.

This marks two years in a row that all three states had double-digit increases in

revenue, which bodes well for future construction volume in the Southwest.

This year we have continued to improve the section to provide the most accurate and useful information to our readers, presented in an easy-to-read format. New categories include land development, which shows a total of \$46.79 million in new subdivision development work in 2003. Also new this year, the category of general building has been enhanced, providing more specific breakout numbers on healthcare, educational and retail construction, among others.

For information on how your company can participate in future rankings, please contact *Southwest Contractor* at 602-631-3080.

The following companies with revenue under \$1 million were not included in the overall ranking due to space constraints.

\$500,000 to \$1 million tri-state revenue: Erickson & Meeks Engineering LLC; Phoenix Design One Inc.; The Wagner Partnership; Dinter Engineering Co.; Green & Green, Inc.; Duty & Germana Architects, Inc.; Suby Bowden & Associates LLC; Sherman Group Inc.; RHR Consulting Engineers Inc.

\$499,000 and under: Applied Engineering; Designlink Architecture & Planning; Fielden & Partners, Inc.; Klein & Associates. <<
